DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

AUTHORIZATION

Authorization for this examiner's amendment was given in a telephone interview with Mr. Christopher J. Gaspar on February 6, 2004.

TO CLAIMS

Cancel claim 44.

In claim 3, line 16, after semiconductor die, insert –wherein said attaching comprises attaching said thermal element to said conductive via--;

In claim 19, line 5, after semiconductor die, insert –wherein said attaching comprises attaching said thermal element to at least of said conductive via--;

In claim 52, line 5, after dissipating heat, insert –wherein said attaching comprises attaching said means for dissipating heat to said means for electrically connecting said first surface of said substrate with said second surface of said substrate--.

Also, cancel the non-elected claims 23-38.

Allowable Subject Matter

Claims 2-22, 39-43 and 45-62 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the claims and arguments define over the prior art. The cited prior arts do not disclose or suggest inter alia the limitations ".....wherein said attaching comprises attaching said thermal element to said conductive via...."

The prior art of record not relied upon is considered relevant to applicants disclosure. Malladi et al. (U.S. 5,972,736) teaches a method for forming an integrated circuit package with heat slug.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
